

23 ROLE OF PARENT ADVISORY COUNCILS / DISTRICT PARENT ADVISORY COUNCIL

The Board of Education of School District No. 46 (Sunshine Coast) believes that parents are partners in our educational system. The Board believes that parent engagement contributes to a positive learning environment, provides input to school planning, and promotes an open, two-way communication between parents, schools, and the District. Parental input, advice and feedback are essential elements in the development of positive relationships between home, school, and the District. The Board encourages that all schools have a Parent Advisory Council (PAC) and representatives from these PACs form the District Parent Advisory Council (DPAC), as per Section 8 of the *School Act*. All parents are welcome to attend PAC and DPAC meetings.
